To the Democrats of Kentucky:

After due reflection I have fully decided to become a candidate for the Democratic nomination for governor of this great state. I do this with a full sense of the high responsibility involved, and the obligations that will rest upon me if elected. I have been a Democrat all my life and have never voted against a party named. My father before me was a Democrat, and I am proud to say that I have the brothers of the same faith, all of whom have been equally loyal with myself to the Democratic faith, and I now ask that the people of this great commonwealth shall

from their judgment of my character, honesty and intelligence and fitness for the office, after a critical examination of my official conduct, and after making careful inquiries of those who know me as to my reputation for honesty and fair dealing to all men, and it is for them to say whether I am entitled to a continuance of that support and of the confidence they have in the past so generously accorded me.

While acting as treasurer of the state during the fearful financial panic of 1907, I made such disposition of the funds of the state in my care during that critical time as to preserve the credit of the state, without impairing or destroying the credit of a single institution in the state and without the loss of a single dollar of the state's funds.

The auditor of the state, by virtue of his office, is chairman of the board of valuation and assessment of the state of Kentucky, which board has entrusted to it a duty which is of more importance to the people of the state than any other duty connected with that office. It is the function of that board, of which I have been chairman for the past three years, to value and assess for taxation, the franchises of all railroad companies and public service corporations doing business within the state. This character of property forms a considerable proportion of the total taxable property in the state and the amount of taxes these companies are required to pay is dependent upon the nature of the assessment made against them. That is, if the assessment of their property is too low, these corporations will not be charged with their full share of the public burden. If too high, then the owners thereof pay more than their fair proportion of the taxes of the state.

It was a matter of common report and general belief among the people of the state that the franchises of

tended by the companies that the property of the railroad companies was assessed at more than its real value by the present board, and that the assessment against farm lands and city lots must be raised before the assessment against the property of the railroad companies could be increased.

I do not believe the farm lands of this state are generally assessed for taxation and valuation as low as one-half of their real value. If the value of the farm lands of this state should be estimated by capitalizing the net income derived therefrom on the basis of 6 per cent, which method is employed to find the value of railroad property, it would be demonstrated that real estate at present is assessed at approximately the full value thereof. In other words, if the same mode or method of ascertaining value should be applied to find the value of real estate it would be shown that real estate is assessed at its full value. The court, preliminary to its judgment, requires these companies to pay on a valuation greatly in excess of any sum they had paid on in previous years. The aggregate increase in the amount of taxes paid by these companies in the year 1912 over the year 1911 was about \$125,000. In the years 1913 and 1914 a like sum was collected from these companies. During the three years of my administration these four companies have paid to the state \$375,000 more in taxes than was paid by them during a like period of time under the administration of my immediate predecessors. These suits now pending, when decided, will determine finally the amount of taxes these companies will have to pay annually to the state in the future, and the question of the real value of this property will no longer be open to discussion.

It is important that the question of value of these franchises should be judicially determined and forever settled, because the belief has prevailed in this state among all the people for some years that the big corporations of the state were always active in politics of the two dominant parties in the state, with the end in view of being favored in the assessment of their franchises. With franchises of corporations assessed at their real value, as they should be, the corporations will be taken out of politics in this state, as they ought to be.

As auditor of the state for the past three years I have also been a member of the shuffling fund commission of the state and, having information gained while acting in that capacity, I believe I am thoroughly familiar with the fiscal affairs of the state. I am in favor of, if elected, will advocate the passage of a law that will require that all state supplies used at all state institutions be purchased by the competitive bidding system, and that the lowest open bid for supplies furnished all institutions be accepted, and I believe the state could easily save \$100,000 a year by inaugurating such a system.

I am in favor of and will work for, if elected governor, the establishment of a system of taxation that will be fair and just to rich and poor alike, and that will cause the lifting of personal property for taxation, which now, because of the rate of taxation, is making tax districts does not pay any taxes at all, and that will place the burden of taxation where it belongs, on those best able to bear it. I am in favor of such legislation, or of a constitutional amendment, if necessary, to put a fixed and definite limit upon the rate of taxation in Kentucky, a step which I believe will cause our officials to follow a policy of economy and efficiency in the handling of the people's funds.

I am opposed to the convict labor system and favor the abolition of the present contract system and the elimination of the competition with organized labor that is the direct result of it. I am in favor of the use of convict labor to produce what is needed by the state institutions and of the purchase of a farm on which they may labor in the open air to produce the foods needed in these institutions.

I am in thorough sympathy with the farmer, having been a farmer and living on a farm all my life. I will do all I can as governor for the great agricultural interests of Kentucky and the men and women engaged in it. As long as the farmer is prosperous every other interest in the state is prosperous, and all her people share in the prosperity as well as in her prosperity.

If I am elected governor I will do all I can to further the good roads movement, and all that is possible to secure a liberal appropriation for the schools and their continued improvement. If the people want for governor of the state a man who will devote his time and what talents he may have entirely to their welfare, without regard to any future political preference (for I believe there can be no higher office, certainly no higher honor, than the governorship of the state in which I was born and reared), then I want the nomination. There is no reason why the officials of the state should fail to give to the state the same devotion to duty as is exacted by any business corporation of its employees, and I promise the people not only to devote that time myself to their interests, but so far as I may have the power to see that every other employee in executive departments of the state government does the same. A full day's work for a full day's pay will be the motto followed in the governor's office if I am elected, and it will apply to all the other departments over which I may have even the semblance of control or influence. HENRY M. BOSWORTH.

SMELLED FIRE IN TIME County Attorney Burch Saves Hotel From Serious Conflagration

The acute olfactory powers of County Attorney W. S. Burch, who has a room at the St. Asaph hotel, was probably all that saved this well known hotel from destruction by flames, or at least, a serious conflagration on Wednesday night. Mr. Burch was awakened some time about midnight by the smell of smoke, and immediately sensing that something was wrong, he rang vigorously on the call bell. Night Clerk Mose Coley opened the door from the office, to answer the bell, and found the hallway filled with smoke. Mose got hurriedly on the job of finding the fire, and located it in the cellar, near the furnace. It had not gained much headway, so that he soon had it extinguished, and everything safe and sound again but a few moments longer and serious trouble would have been encountered.

RED HOT STOVE EXPLODED And Miss Ella May Saunders Had Very Narrow Escape

Miss Ella May Saunders, the well known and popular milliner had a very narrow escape from serious injury at the Veranda hotel, where she makes her home with her mother, Mrs. Joseph Coffey, on Wednesday morning. She was standing by the kitchen range, when the water box suddenly exploded, scattering pieces of red hot stove about, like shrapnel from a bomb. By the luckiest chance in the world, none of the pieces struck her, though she was fully in range, and her friends are congratulating her on her narrow escape. The stove is almost a total wreck.

LATEST WAR NEWS

Germany struck terror into the heart of England Wednesday when a German warship fleet bombarded three English coast towns. For the first time in centuries England has been struck by a foreign foe. A fleet of swift German cruisers crept through the fog to the eastern coast and turned their guns against the Britons. When day broke they began the bombardment of three important towns—Hartlepool, at the mouth of the Tees; Whitby, 35 miles southward and Scarborough, noted as a pleasure resort, 15 miles beyond. Hartlepool suffered most.

There two battle cruisers and an armored cruiser were engaged and at this place the greatest loss of life occurred. The British War office fixes the total number of dead at Hartlepool at seven soldiers and 22 civilians and the wounded at 14 soldiers and 50 civilians.

At Scarborough where a battleship shelled the town, 13 casualties are reported, while at Whitby two were killed and two wounded. Men, women and children of the civilian population were left dead or wounded, struck without warning while at breakfast or at work. In all the casualty list totals 110, according to the official estimates, of whom 31 are known to be dead. Three churches were damaged, the gas works and lumber yards at Hartlepool were set afire and the abbeys of Whitby and the abbey of the town of Scarborough received the full effects of a shell. A number of houses and shops were shattered and partly burned in each of the towns. The hostile ships escaped in the night after an encounter with coast guard vessels patrolling the neighborhood, which were reinforced as soon as the presence of the Germans was signalled to other ships of the British fleet.

One of the greatest victories of the war is also claimed by the Germans on hand this week. The Berlin official statement contains these words: "The Russian offensive against Silesia and Posen has been completely broken down. In the whole of Poland the enemy was forced to retreat after fierce and stubborn frontal battles and is being pursued everywhere. A semi-official statement from Berlin speaks confidently of the situation in the east and says that the Austrians appear to have achieved their first actual successes against the Russians in the last few days in western Galicia."

All the recent official communications issued by both the allies and the Germans referred to the allied offensive from Ypres to the sea. Consequently, the Germans are on the defensive.

A British squadron is still standing off the coast and has aided the attacks in the vicinity of Nieuport, but nowhere has marked progress been noted. It may be said nevertheless that the attempt of the allies to push the Germans out of Belgium has definitely begun and that the results so far reported in Flanders have converted the German line into a series of tenuously held positions rather than a straight front. Many points allied wedges have been driven in.

Seventy head of the finest meat hogs ever remembered being slaughtered in this community were slaughtered on Dec. 8th, although it was not very cold on that day, but very disagreeable under foot. Lots of the citizens took advantage of the opportunity and had their hogs killed. It snowed all day and melted almost as fast as it fell. It froze that night and cooled the large herd out all night.

Miss Mary Dee Kennedy is here among relatives and friends this week.

The annual bazaar given by the ladies of the Presbyterian church on Dec. 12th, was well attended and lots of nice things to eat were on hand, and lots of Xmas goods for sale. Uncle Fiddie was general waiter for the occasion and was kept busy all the time until a late hour at night when all went home, well pleased with their undertaking, which will long be remembered by all who were present. The proceeds of the occasion amounted to \$150. TWO ROUTES FROM SOMERSET

Being Considered By Those Who Want To Build Pike

Dr. H. S. Doolin, of Somerset, one of the good roads live wires of Pulaski county, came to Stanford Monday morning and spent the day here boosting for the proposed pike connecting the capital of Pulaski with the capital of Lincoln. Dr. Doolin says that two routes are under consideration by the Pulaski authorities, one connecting Somerset with Crab Orchard and the other with Wayneburg and thence with Stanford via the Wayneburg pike. Dr. Doolin brought to County Judge James P. Bailey, of Lincoln county, a letter from County Judge R. F. Jasper, of Pulaski, on the subject, which is also endorsed by County Attorney G. W. Shadron. The letter reads as follows:

Somerset, Ky., Dec. 12, 1914.

Judge James P. Bailey, Stanford, Ky.

My Dear Judge: The Pulaski County Fiscal Court has agreed to appropriate a liberal sum to apply on some county seat road next year. The road to get the first appropriation will be the one that gives the Fiscal Court the donations the most money, \$5,000 being the smallest amount to be considered.

We would like very much if your Fiscal Court could so agree to your plan to agree to meet us on either the Stanford or Crab Orchard road. So, if either of those roads secures the largest donation in this county, we could have an outlet from the termination of our pike, then that would put your county on an important stand with regard to the two roads.

Hoping you and your court can see your way clear to make the above mentioned provisions.

I am your respectfully,

R. F. JASPER
G. W. SHADRON,
County Attorney.

TO EXTEND BOONE WAY

James Maret Now Working on Extension of Historic Highway.

Secretary James Maret, of the Commercial Club at Mt. Vernon (the "Mountain Gateway") having succeeded in getting "Boone-way" authorized on the map from Cumberland Gap to Crab Orchard, is now at work on a proposition to extend the highway "on to Chicago" via Louisville, passing through the cities of Stanford, Danville, Harrodsburg, Lawrenceburg and Shelbyville to the Falls City; thence via Seymour and Indianapolis to the Windy City.

There are good trucks over the entire line from Crab Orchard to Chicago and the expense of improving these highways to put them in proper condition to deserve the name of Boone Way, "official route," idea, would not be great.

All concerned, that have been heard from, are much pleased with the proposition and declare their cities and counties will see to it that the highway through their domains is improved and kept in order and proper condition.

The matter has reached that stage where it can be confidently declared it is a go — "Cumberland Gap to Chicago over Boone Way."

Mrs. Pearl Gravitt, a Bourbon county lady, saved her money and instead of putting it in a bank where it would have at least made her three per cent interest, kept it hidden away in an old trunk. When she went to get the money the other day, the whole amount, \$918, had been stolen. There's no need to point the moral. Three mighty good banks are advertising in the I. J. for the privilege of taking good care of your savings for you.

Young Mother Dies

Mrs. Maud Lee Langford, aged 28 years, died of tuberculosis on Thursday, and is survived by her husband, William L. Langford, a farmer, and two children, aged five and three years. She was a faithful member of the Christian church, and expressed her readiness to go. Funeral services were held at the home on the Middleton Lynn farm at one o'clock Friday, by Rev. Green followed by interment in Buffalo Springs cemetery.

Owsley Farm Withdrawn at \$95

The farm of the late S. E. Owsley near Hubble was withdrawn at \$95 an acre by Administrator B. W. Givens, who held a sale there Wednesday. It is understood that the place was held at \$100 and will be sold privately at that figure. Stock and other offerings sold well. The extreme cold weather kept the crowd down but many were present. S. B. Saunders later rented the farm at \$1,000 a year.

Pence & Hill, Stanford, Ky. 100-2.

Hubert Still Smiling

Local Agent H. C. Carpenter reports that a Maxwell has broken another record in that Carlson climbed Mt. Wilson, Colorado an elevation of 6,000 feet, nine miles distance, in 29 minutes and one second, which is said to be 12 minutes and 59 seconds better than the previous record held by a Stutz car. The Maxwell is said to have been a regular stock car, Model 25.

LETS NOT FORGET our friends whom we love and whom we want to make glad and and cheerful and above all LETS NOT FORGET that class whom He said you have with you always. It takes so little to make one cheerful. Only to remind them they are not forgotten. Never since time began, never since the first Christmas morn have there been so many homeless, heartbroken, hungry, unhappy men, women and children in the world. Let us not give extravagantly nor sparingly, but in wisdom and love. We show many not expensive things you can give.

Please take your time and make your selection so you will not have to exchange it.

GET TO THE CAUSE

Stanford People Are Learning The Way

There is but little peace or comfort for the man or woman with a bad back. The distress begins in early morning—keeps up throughout the day. Only Sure Corn Cure Ever Known

"Get-It" the New Way, 2 Drops Do It. To endure the pain and tortures caused by a little thing like a corn is ridiculous, simply because it is unnecessary. The new-plan corn cure.

"GET-IT" is the first one ever known to remove corns without fail, without pain and without trouble. This is why it is the biggest-selling corn cure in existence today. It is now used by millions, because it does away with sticky tape, with plaster and cotton rings that shift their position and press down onto the corn, with knives that "raw up" the toe, with "burners" that cause pressure and pain, with knives, razors and files, drawing and pulling at a corn.

"GET-IT" is applied in two seconds. Two drops applied with the glass rod on the work. Pain goes, the corn shrivels, vanishes. Accept no substitute. Try it on any corn, wart, callus or bunion tonight.

"GET-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

"GET-IT" is sold in Stanford at Shumaker Drug Store.

Severe Head Pains Caused By Catarrh Cured By Peruna

I Feel It a Duty to Mankind to Let All Know of My Cure. Peruna Did It.

Mr. W. H. Chaney, R. F. D. 2, Sutherland, Pittsylvania Co., Va., writes: "For the past twelve months I have been a sufferer from catarrh of the head. Since taking four bottles of your Peruna I feel like a different person altogether. The severe pains in my head have disappeared, and my entire system has been greatly strengthened. This is my first testimonial to the curative qualities of any patent medicine. I feel it a duty to mankind to let them know of Peruna. In my estimation it is the greatest medicine on earth for catarrh."

We have thousands of testimonials like Mr. Chaney's. Some of them were cured after years of suffering and disappointment in finding a remedy.

Send for free copy of "Mile of Life." The Peruna Co., Columbus, Ohio.

Those who object to liquid medicines can now procure Peruna Tablets.

School Case in Highest Court

The official record in the contest case of P. M. McRoberts against G. L. Penny over the school trustee election in Stanford was filed with the court of appeals at Frankfort today by Attorney G. D. Florence, representing Penny. Penny was elected by a majority of two on the face of the returns, but in the contest brought by McRoberts, Judge Hardin struck off a sufficient number of the votes cast for Penny, as having been illegal, to give the victory to McRoberts.
